

International Classification of Disease-10-Clinical Modification (ICD-10-CM) Chart

The table below presents the ICD-10-CM codes for epilepsy.

The ICD-10 diagnosis code(s) must be defined for the most detailed level of specificity available. These codes are being provided for informational purposes only; it is the attending physician's responsibility to select the appropriate code(s) supported by the patient's medical record. This is not a complete list of ICD-10 codes applicable to epilepsy.

Please refer to the ICD-10 manual or cms.gov/ICD10 for a complete listing.
